SAN FRANCISCO, June 14.—[By the Associated Press.] The Supreme Court today affirmed the decision of the lower court in the case of Dr. Bowers, who was convicted of the murder of his wife and sentenced to

be hanged.

The decision is a voluminous one, and was written by Justice Patterson. All the Jus-tices concurred in denying defendant a new trial, and the decision leaves Dr. Bowers beyond the power of courts to save. His only hope is interference by Gov. Water-

SAN FRANCISCO, June 14.-[Special.]-The case of Dr. J. Milton Bowers, upon which the Supreme Court passed its decision to-day, possesses peculiar interest, both from its being a case of conviction on evidence strongly circumstantial, and from the later interweaving with it of the celebrated Benhavon case. Mrs. Cecelia Bowers, the third wife of Dr. Bowers, died November 1, 1885. Her life was insured in various so-cieties for \$17,000, nearly all of which was to go to Bowers himself. Bowers's two other wives died under suspicious circum-stances, and some of her friends suspected foul play and asked for a coroner's investigation, which was at first refused, but subsequently granted. All the testimony of Bowers's medical friends was to the effect that Mrs. Cecilia Bowers died from ulceration of the stomach. The body was disinterred and Dr. V. D. Johnson analyzed the stomach. Mrs. Bowers died by phosphorous poisoning. The Coroner's accused Bowers of murder. On April 23, 1857, he was found guilty in the Superior Court and sentenced to be hanged. He appealed, and has ever since been awaiting the decision of the Supreme Court in the

County Jail.
When Henry Benhayon, Mrs. Bowers's brother, was poisoned and left an alleged confession declaring that he was solely responsible for his sister's death, the entire ommunity suspected that Bowers had endeavored to clear himself by putting Benhayon out of the way by the assistance of a book agent, John A. Dimmig, now awaiting trial for the murder of Benhayon. The

Supreme Court, in its decision, says:
"The testimony introduced by the prosecution tended to show that the case of Mrs. Bowers was one of slow poisoning, by the administration of free phosphorus, which produced ulceration of the stomach. The ost that can be said against the verdict is that it depends entirely upon circumstantial evidence, and that the evidence as to the circumstances is conflicting. But the experts who testified were shown to be competent to speak. The jury heard their evidence, passed upon their credibility and colling that the deceased was poisoned, as claimed by the prosecution, it is still contended that the evidence is insufficient to show that defendant administrated the Suburban handicap, and it was contended that the evidence is insufficient to show that defendant administrated the Suburban handicap. poison to her, and that if she was killed with phosphorus, there is stronger evidence to prove that some person other than defendant administered it to her than there is to prove that defendant administered it. But here again, there is evidence, although conflicting as to defendant's treatment of For his wife during lifetime, and the fact that upon her death, that he treated her cruelly there is abundant evidence, and as to the means and opportunity to commit, there is no question. It was for the jury to say, from all circumstances of the case, after they became satisfied that deceased was

killed by phosphörus, who administered it, and for what purpose." The court carefully reviews each exception taken and finds no error committed in the lower court. As to newly-discovered evidence bearing on it, such as Benhayon's confession, the court says: "We have no authority to consider these matters as thus presented. They are no part of the record sent to us from the court below, and there is no provision of law by which newly-discovered evidence may be presented to this court in the first instance. The remedy in

such cases rests with the Executive. He alone can afford relief." When Chief Jailer Rogers informed Bowers of the decision, the prisoner said it was nothing more than he expected. he thought the whole proceedings would have to be revieved on account of the Benhayon incident.

### THE GRAHAM TRIAL.

More Testimony Produced Against the Old Man. Santa Cruz, June 14.—[By the Asso-ciated Press.] The Graham trial was resumed this morning. Elihu Anthony testi-fied that he was on the Coroner's jury which held an inquest on the body of Bennett. He heard Graham threaten the Bennett family, and had cautioned him to avoid violence, but he didn't believe that Graham would carry out his threats.

would carry out his threats. Graham said he had been goaded and harassed by the Bennet's, and could stand it no longer.

O. K. Stampley, Acting Sheriff at the time of the homicide, testified to seeing Graham shoot Bennett. Counsel for the defense argued against the admissibility of his evidence, but the Court overruled the objections, and Stampley reversible the facts of the threats, circumstances he had been goaded and harassed by the Bennet's, and could stand it no longer.

O. K. Stampley, Acting Sheriff at the time of the homicide, testified to seeing Graham shoot Bennett. Counsel for the defense argued against the admissibility of his evidence, but the Court overruled the objections, and Stampley recited the facts of the threats, circumstances of the shooting, and his endeavors to arrest Graham. He had never seen Graham at 1852, and went to New Orleans with him. He did not try to get Graham back to Santa Cruz, but told people that he had seen him. The court adjourned until tomorrow.

A Storm Up North. SAN FRANCISCO, June 14 .- The United States Signal Service office has reported that a storm is centered north of the Columbia River, and is moving eastward, and that there will be plenty of rain in the lo-cality of this city. The thermometer registered 64° here at 4 o'clock this morning Heavy rains are reported from Chico, Petaluma, San Rafael and Healdsburg. At the latter places the damage to the hay crop is very great. Crop prospects are otherwise good.

Gave Himself Up. STOCKTON, June 14.—Andy Hoeflick, who attempted to murder his former sweetheart, Miss Julia Craig, on Saturday evening last, hiss Julia Craig, on Sagirday evening last, by cutting her throat, came to town early this morning and gave hunself up. He said he had concealed himself in the hay in a barn on the Graig farm until Tuesday night, when he crawled out, and, going to a Chinese vegetable garden, ate some raw vegetables. When he gave himself up he was in a pitiable condition, being half famished.

Justifiable Homicide. SAN FRANCISCO, June 14.—In the inquest over the body of Samuel E. Robertson, who was killed last Sunday afternoon by Albert Bean, the Coroner's jury tonight rendered a verdict of justifiable homicide. Bean and a companion with two girls were attacked by Robertson, who insulted the girls, and when the party tried to withdraw followed them up and knocked Bean down. It was at this time that the fatal shot was fired.

The Grape Crop Injured.
SAN FRANCISCO, June 14.—H. A. Pellet ot St. Helena reports to Chief Vitcultural Officer Wheeler that the effects of coulure are daily becoming more apparent in this vicinity, Riesling, and in fact all wild grapes, being particularly affected. The truit is already falling off to such an extent as to render it likely that notinore than half a crop will be harvested.

The Fish Commissioners. SACRAMENTO, June 14.—Fish Commissioners Harvey and Routier met today. A resolution was passed declaring off all appointments of deputies to the commission, and calling for applications for the po-sitions made vacant. The commissioners declined to pass \$1200 of bills of the old board, but allowed \$1100 contracted by themselves.

Peculiar Plea for Goldenson. SAN FRANCISCO, June 14.—Today a petition for a rehearing in the case of the mur-derer Goldenson was filed in the Supreme Court. The petitioners argue that Goldenson is entitled to a new triel on the ground that the public press so inflamed the public mind that it was impossible to secure an unbiased jury.

The Coronet Coming.
SAN FRANCISCO, June 14.—John D.
Spreckels will go to San Diego in his yacht Furlive to meet the yacht Coronet, whose arrival shortly is expected.

There is no doubt but what the gambler are in a tight place, as are also their friends and backers, who, under the strong press-ure of public opinion are being forced to at blicly come out on the side of law and order, no matter what their private sentiments may be. This is shown in the increasing respect with which the hoodlums regard Mayor Workman and Mr. Humphreys; not that their real feelings toward those gentle men have undergone any change, but they cannot hide from themselves their increasing power and influence, and they have policy enough not to further antagonize them. But it is all the same. Both gentleis say they will stand firm; that they neither be cajoled or builled, and it is eved that they have the astuteness to through the flimsy scheme and not be

MAYOR WORKMAN AND THE HERALD. MAYOR WORKMAN AND THE HERALD.

In order that there might be the fullest possible discussion of the present status of the gambling situation, a Times reporter was yesterday detailed to interview Mayor Workman upon the queer editorial-local in yesterday's Herald, purporting to be an interview with that gentleman setting forth his views in regard to gambling, and defining his position in regard to his own party. Mayor Workman received the TIMES man very pleasantly and, although very busy, granted him a few minutes' time. In answer to questions His Honor said: "Oh, yes, as to the Herald article. So far as the interview proper is concerned, it is in the main correct, though there are several inaccuracies, which I presume were unintentional mistakes of the interviewer. For instance, where I am quoted as saying that I found the games paying \$30 a mouth for the privilege of running, it should read \$20 per week, which makes quite a difference in the amount of boodle, though of course the privilegie is the same if it were but \$30 a In order that there might be the fullest ning, it should read \$30 per week, which makes quite a difference in the amount of boodle, though of course the principle is the same if it were but \$30 a year. There are several other minor inaccuracies, but nothing of any importance. Of course I refer only to the interview part of the article in question, so far as it refers directly to myself, and am not responsible for any opinions or statements interpolated by the reporter. So far as the 'catechism' is concerned, I was glad of an opportunity to set myself right. I am a Democrat, but I was elected by the whole people, and as a public official I propose to guard the interests of the people, and I do not think that I am called on to shut my eyes to gross corruption or stultify myself simply because a small minority think I should do so as a matter of party expediency. In regard to the silly talk about Loomis and Mr. Breed, it is all nonsense, never had any foundation in fact, and was never seriously considered by, any one until 'Democrat' the silly talk about Loomis and Mr. Breed, its all nonsense, never had any foundation in fact, and was never seriously considered by any one until 'Democrat' brought it out in his letter. Mr. Breed is my personal friend, but he has no aspirations for the Mayoralty, and even if he did have would not himself 'stoop to such methods as those mentioned, nor would he insult me by asking me to aid and abet him in them. My liking for Loomis is based simply on his record. I believe him to be honest, straightforward and a good officer, and for these reasons only did I favor him for the place of Captain in place of Fletcher. As to my relations with Mr. Chandler, they are parely personal. I have known that gentleman for a long time, and my relations with him have always been pleasant. I don't believe there is anything further to say just now, and as I have been quite extensively interviewed recently, you will have to excuse me."

The white gamblers are also very careful about opening up, now that they know the Police Commissioners are in earnest, and they will not take the risk of having their dens cleaned out, as they will be in case they attempt to play.

### THE "WORLD."

How a Weekly Paper's Man Gets Into Trouble. For several days past there has been a

notice in several papers, signed by A. W. Clinton, proprietor of the Sunday Social World, stating that J. N. Starin was no longer connected with that paper. Starin was advertising solicitor for the paper, and had been in its employ for some time, and it was thought that there had merely been some business disagreement which caused him to sever his connection with the publication, consequently there was considerable surprise when it was learned yesterday that Starin had been arrested late Weanesday afternoon by Deputy Constable "Chalk" Roberts, and had spent the night in the Couhty Jail. Yesterday morning he was brought before Justice King, and bound over in the sum of \$250 to answer a charge of obtaining money under false pretenses. Starin was unable to give the bond, in default of which he was sent to jail.

Starin was arrested on a complaint sworn out by J. W. Gardner & Co., the music men of South Spring street, to whom he had caused him to sever his connection with the

On investigation, it was learned that this was a common failing of Starin, and that Maj. W. C. Furrey and other business men had been favored with his worthless bits of paper. On inquiring at the World office it was learned that Mr. Clinton had gone to San Francisco, and Mr. McClurg, who is managing the office, said that he knew nothing about the matter, as Starin had not been employed on the paper since his connection with it.

From what could be ascertained, Starin owes his downtail, to strong-drink. He is said to be a good advertising solicitor and made good wages, but that when under the influence of liquor was wholly irresponsible and imposed on any of his friends that were convenient, borrowing small sums, ranging from \$5 to \$10, for which he would give checks on various banks in which he had no funds on deposit. The total amount of his stealing is about \$275.

### A QUEER JURY.

They Must Have the Papers at Any

A rather queer story was afloat about the jurors in the Brady case yesterday afternoon, which, as the jury disagreed, anyway, does not perhaps amount to much. The jury, it will be remembered, failed to agree and were locked up for the night. Yester-day morning they were taken to a restau-rant on Temple street for breakfast, and while there they surreptitiously got posses four newspapers, which, is said, they took to the jury-room with them. The matter should be investigated, and if found to be true, officers warned to be careful in the future, as a little oversight of this kind might some time have a bearing on some important

#### JOHN BAKER.

A Very Funny Robbery Case in the Superior Court. In Department No. 1 of the Superior Court yesterday John Baker, charged with having taken \$5 from the person of one Felix Prober on the 24th of April, was brought up for trial before Judge O'Mel veny. The complaining witness, while apparently a hard-working, matter-of-fact personage, kept the jury, bar and specta tors in a constant ripple of laughter while giving his testimony. The cross-question of laughter while ing of defending counsel appeared to irritate him, and frequently he had to be called to order by the Court. Having stated that he had come to Los Angeles from Colton, and went on his arrival to the house of a Mr. he had come to Los Angeles from Colton, and went on his arrival to the house of a Mr. Smith, who keeps a tavern on Alameda street, witness proceeded to state that the morning after his arrival in the city he changed a \$20 gold-piece at the bar and treated several persons, during which time he noticed Baker standing by him, and he then felt certain that Baker would rob him if opportunity offered. Starting down street he was knecked down on the sidewalk, and his money removed from his pocket by Baker. During the struggle that ensued some of the money rolled away, and was stolen by some of the bystanders.

"What kind of money did you have?" inquired counsel for the defense.

"Good United States money—gold and silver—and he took it out of my right hand, where I was holding it in my pocket," replied the witness, as he stood up and held out his fist.

Other witnesses having corroborated the main witnesses having corroborated the main facts, the case was given to the jury, who promptly returned a verdict of guilty against

### A RUNAWAY GIRL

Only 13 Years of Age, and Wanted to Be a Wife.

A telegraphic dispatch was received yes-erday by Emil Harris from Chico asking that he detain a young girl who had run away from home and would arrive in Los Angeles on the evening train. True enough, when the train arrived at the depot Miss Nettie McClanehan, who is only 13 years of age, escorted by a man of some 40 years named Henry Nelson, stepped out onto the platform, and both of them ap-peared very much disgusted when Harris peared very much disgusted when Harris and Deputy Constable Hunter announced their intention of taking them both to police headquarters. Having no authority to detain Nelson in custody, he was allowed to depart on his own recognizance, to appear when wanted; but the skittish little girl was compelled to remain at the police station, where she will be held subject to instructions from her family. The man, who persuaded the girl to elope with him, stated that they were on their way to Mexico, where they would have been married, if an unkind fate had not nipped their little scheme in the bud.

This latter phase of the case will be called up, in all probability, in the Supreme Court during the July sitting, and, making due allowance for the matter to be taken under advisement, a decision will be handed down about the beginning of September. Yesterday Sheriff Kays received the following letter:

WHAT THE KAILROADERS SAY ABOUT THE BROTHERHOOD.

The Strike Is Over According to the C., B. & Q. People-The Fresno Branch of the Southern Pacific

The Fresno branch of the Southern Pa cific, though not yet entirely completed, is to be opened and the first trains put on to-day. The road is something over 100 miles long. It leaves the Southern Pacific mine iong. It leaves the Southern Facine
main line at Fresno, taking an eastward
course, and passes through some very rich
portions of the San Joaquin Vailey, which
have up to this time had no railroad facilities. Passing through the vailey a distance of 90 miles, it joins the main line a second time at Piso, a small station just south of Tulare. Between 90 and 100 miles

second time at Piso, a small station just south of Tulare. Between 90 and 100 miles of road is now completed, and the remainder will be pushed through after the trains have been put on the completed part.

Eighteen carloads of cattle from Phoenix passed through for San Francisco yesterday. Seventeen carloads of wine went east from Los Angeles yesterday. Both wine and brandy shipments are very heavy now; in fact, they are about the only articles sent out at this particular time of the year. On the sidetracks and spur at Florence there are now, and have been for two weeks, nearly 300 cars loaded with lumber destined for Los Angeles. The lumber-yards of the city are so small that they can at no time accommodate more than half a dozen cars at one time. The lumber has been brought from San Pedro, and has accumulated at Florence on account of the yards here not being able to receive and unload them as fast as they come. A train load is brought in every night and distributed around to the various yards.

San Bernardino is crying aloud for a short road up into the mountains to bring down the immense amount of lumber up there. A Kansas City capitalist has lately been in that city, and after looking over the ground, has promised the people to build an immense sawmill in the pine district and run the desired road to it.

THE CHICAGO, BURLINGTON AND QUINCY.
There was considerable talk in railroad

circles yesterday about the Chicago, Burlington and Quincy circular, issued by the Brotherhood of Locomotive Engineers, declaring the strike not yet off. Old heads say that the circulation of such a paper is decidedly unwise in the brotherhood, and may give them trouble that they do not look for. It will have the effect of keeping the "Q" constantly on its guard, and since they know that the feeling against them: It being so sedulously kept alive, they will use every possible effort heretofore not used to down the engineers as well as the other strikers. Other roads will also be on the alert.

Friends of the "Q" answer the charge that the road is employing incompetent men by saying that there have not been, since the strike, as many accidents and delays to trains as occurred in the same length of time previous to the strike, when the brotherhood engineers were in. The engineers themselves stoutly maintain that the percentage of small accidents is at least one-fourth greater since they went out, due to incompetency and mismanagement.

The engineers and firemen on the local circles yesterday about the Chicago, Bur-

one-fourth greater since they went out, due to incompetency and mismanagement.

The engineers and firemen on the local roads say the brotherhood is right, and they will stick to whatever it says as the truth. They hold that it is too large an organization to resort to the publication of such statements if they were not true.

On the other side of the question The Times has received the following letter, purporting to give the observations of a man who has traveled over the "Q" before and since the strike:

V. E. FAUM TALKS.

16 WALNUT AVENUE,
LOS ANGELES, June 14, 1888.

To the Los Angeles Times: In
this morning's issue of your paper I
see an article by the Brotherhood of Engineers that reflects upon the management
of the Chicago, Burlington and Quincy
Railroad. Let me give a few of my own
observations, as I have traveled over a large
portion of the Chicago, Burlington and
Quincy Railroad in the last two months,
and so far as I can see the present engineers
are competent and are giving good satisfaction to the public, as well as the company
that employs them.

tion to the public, as well as the company that employs them.

The article quoted says that the "Q" employed after the strike was on "men of drunken and vicious habits." No drunken man can hold a position upon the Chicago, Burlington and Quincy road. This fact alone made and kept many of the brotherhood sober men while in the employ of the said company.

hood sober men while in the employ of the said company,
Again we quote: "We say it is not a question of wages." I fully agree with the brotherhood upon that point, and I can truthfully say it was not a question of wages on either side, as I know personally men who were receiving from the Chicago, Burington and Quincy road from \$75 to \$125 per month who quit their places and now are filling other positions for less money, and there are many more lounging around the brotherhood headquarters for \$65 a month. The question seems to be, who shall control that corporation, and as the stockholders voted almost unanimously to sustain Mr. Stone is his management of the road, it would seem as if the brotherhood was an would seem as if the brotherhood was en

tirely neglected.

Again, let me state a fact, that by actua Again, let me state a fact, that by actual count several hundred more cars passed through Pacific Junction in April, 1883, than passed the same point in April, 1883, than passed the same point in April, 1887, and a less number of engineers and fremen are on the pay-rolls of the road in 1885 than there was of the brotherhood in 1887. Does this look as if the brotherhood will soon drive this great corporation into insolvency? I say, verily, nay.

So far as I could see with my own eyes, I am certain the new engineers are competent and doing their best to the company they serve, and also that the company are doing their best to serve the public faithfully, and at the same time insist that the sockholders must and will control its own affairs. Respectfully, V. E. FANNER.

MR. QUIGLEY'S STATEMENT.

Mr. Quigley, agent of the Chicago, Bur-

Mr. Quigley, agent of the Chicago, Burand Quincy in this city, when seen by a Times reporter yesterday, and asked about the circular purporting to have been circulated by the locomotive engineers saying that the strike was still in progress on his road, and that it would so remain until the company came to terms, said: "If the strike is still on we are not feeling any bad effects from it, and if the brotherhood will keep up the fight it will be a good thing for the road. We have filled the places of the strikers with good men, and the public know that they will be protected. We have taken more than 1600 people from Los Angeles since we opened our office here, and our business is increasing every day. Let the fight go on; we are not suffering to any alarming extent." by a Times reporter yesterday, and asked

### SHOT IN THE HEAD.

A Queer Accident Caused by Fooling

A queer accident that came near proving fatal occurred yesterday at Boquist's livery stable, 119 East First street. George Ostertag was practicing with a 22-caliber re-volver at a bar glass, with the open end toward him. After firing two or three shots one bullet struck the round bottom of the glass and glanced, coming directly back and striking the marksman just abo the eye. The force was so great that th bail passed into the skull and completel flattened itself out against the bone. A surgeon had to be summoned to cut it out

The Brady Case. Judge Williams having returned to his home in Ventura, Judge O'Melveny pre-sided yesterday in Department No. 1 of the

Superior Court. The jury to whom had been given the case of the People vs. Brady, about 10 o'clock on the night previous, were brought into court and asked if they had agreed upon a verdict. Upon replying in the negative, and explaining that the difference of opinion arose over a matter of fact and not law, and that there was little likelihood of an agreement being reached, they were discharged after having been out over 12 hours. The jury stood eight for acquittal and four for conviction from first to last. The defendant was then released upon his old bond of \$500, and the case reset for Friday, August 10th. The jury to whom had been given the cas Marriage Licenses

### THE SEWER FARMS.

VERNON PEOPLE HOLD AN IN-DIGNATION MEETING.

Sewer Water Is Bad, the Council Is Worse and the People Kicking on Both - Begging for Pure Water-"The Times" Supported.

The Vernon and Harmony district people cannot quite get over that move made by the Council last Monday to deprive them of water and to force them into the use of the sewer water. The move was made in a quiet way, but the wise ones knew that out of that innocent resolution a whirlwind of indignation would come.

Collins introduced the resolution when the sewer question was up. An ob-jection was raised, but the gentleman over-

when the sewer question was up. An objection was raised, but the gentleman overrode that by putting out the plea that if water should be furnished freely to these people they would immediately drop the sewer water, and then the South Side Irrigation Company would be driven to the wall. Putting this view on the case, the resolution went through in a stormy moment, when half the members did not know what they were voting upon.

A casual glance at Mr. Collins's action would place him in the unpleasant light of a log-roller for the irrigation company, but that was not his idea. The purpose of the resolution was to protect the city. If the sewer water were wholly abandoned by the citizens, the irrigation company, who have been taking care of it so long, would be unable to handle it, and they would, of course, be forced to give up their contract and let the sewerage fall back upon the city's hands. The city is in a bad way to take care of it now, though the Council are to blame for its being so, since because of temporary relief afforded by the company, they have neglected to provide permanent means for the disposal of the sewerage.

A large indignation meeting of the residents of Vernon and Harmony districts was held at Niles Hall, Vernon, Wednesday evening, and adopted the following resolutions:

Whereas, at the request of the South-

Whereas, at the request of the Southside Irrigation Company (the sewer company), the honorable City Council has ordered the Zanjero not to seil any more river water from ditches Nos, 3, 4 and 5 to residents outside of the city limits; and,

Whereas, water from said ditches has been furnished us for a series of years until the suits against the sewer company were commenced; and,

Whereas, there is an abundance of fresh water going to waste, benefiting no one, and the city losing the revenue therefrom, which amounts to several thousand dollars during the season; therefore, be it

Resolved, first, that said action of the City Council is illegal and outrageous, and against the best interest of both the city and the territory affected thereby.

Second—That unless said order be rescinded soon the damage to trees and fruit will be many thousands of dollars.

Third—That we respectfully request the City Council to rescind their action, and to furnish us river water as heretofore.

### PASADENA.

Return and Reception of a Leading Citizen.

□PASADENA, June 14,—[Specially Reported for THE TIMES.] E. C. Webster, recently returned from the East, was tendered a banquet and reception at the Carlton Hotel

returned from the East, was tendered a banquet and reception at the Carlton Hotel last evening. Over 100 of our prominent citizens participated, and speeches were delivered by L. J. Rose, A. C. Fish, Hon. P. M. Green, Judge Magee, Col. Ray and others. Mr. Arbuckle entertained the guests by song and recitation. No effort was spared to show Mr. Webster that he is an honored citizen, a citizen whose pluck, energy and foresight has done so much for the young city.

Mr. Webster's mission east, as is well known, was to negotiate the city bonds, and at the same time raise funds with which to carry on his own extensive enterprises. He has been successful in both instances. The money for the city bonds in bank and ready to be pald over as soon as certain corrections can be made in the wording of the bonds, and within two weeks the city treasury, it is to be hoped, will be replenished, at least sufficiently to pay the policemen, surveyors, assessors and other public servants, who need their money, so long overdue. It is not much to the credit of our city that warrants are being hawked upon the streets at 15 per cent discount.

Wr. Webster will soon commence the

the credit of our city that warrants are being hawked upon the streets at 15 per cent. discount.

Wr. Webster will soon commence the erection of the building on Raymond avenue to be used as the postofilee, and will proceed with his business in the usual way, meeting all his obligations as they become due. Mr. Webster was the recipient of many attentions while in the East, and counts among his warm friends Mr. McNally of the firm of Rand & McNally, Chicago; also Dr. Greene of "August Flower" Jame of Philadelphia. Both of these gentlemen, having their winter homes in Pasadena, naturally feel interested in the welfare of the city, and, it is understood, are heart and hand with Mr. Webster in his enterprises. The following clippings, the first from the Philadelphia Sunday Dispatch and the latter from the St. Louis Globe-Democrat, will explain themselves:

"E. C. WEBSTER. "Mr. E. C. Webster of Pasadena, Cal., is the guest of Dr. G. G. Greene of Woodbury, N. J., during his stay in the East.

bury, N. J., during his stay in the East.

"Mr. Webster spent several days in the eity in a suite of rooms at the Girard House during the week, and received many calls of distinguished and moneyed men, all of whom were specially delighted with the greatness and possibilities of beautiful Pasadena. Pasadena is the red rose that ever blossoms and blooms in the mind of its most distinguished citizen. Pasadena takes precedence in Mr. Webster's mind, and he does more good to that home, sweet home of peace, good will, beauty and plenty than any man who resides within its precious confines. He negotiated through his very valued friends in the East the city bonds of Pasadena, and is ever looking to her welfare and to the good of her generous people. He is visiting Atlantic City today to specially inspect the most perfect system of sewerage in the world, in order to present the matter intelligently to his people and induce them to make Pasadena the Atlantic City of the West."

RECEPTION TO AN HONORED GUEST. [Special Dispatch to the Globe-Democrat.]

"JERSEVVILLE (III.), June 4.—An elegant reception and entertainment was given this evening by Dr. A. A. Shobe is palatial residence in this city, in honor of his distinguished guest, E. C. Webster, one of the wealthy and prominent citizens of Pasadena, Cal. Prof. J. Pyke, in a few well-chosen words, welcomed Mr. Webster back to his native home, to which he responded with much feeling. During the evening Mr. Webster was serenaded by the cornet band, which called the gentleman out again, making an eloquent address to the crowd or old friends gathered outside the residence of Dr. Shobe."

Mr. Webster met Hon. S. M. White at the St. Louis convention, who showed him many courteous attentions.

W. D. Hughes, in the interest of the Canadian Pacific Railroad, and also John L. Truslow of the Santa Fé Railroad, have been stopping at the Cariton. Other railroad officials are in town and the question is, "What's up?"

W. D. Lewis of Pannasofikee, Fla, has

shipped in since the first of the year 190,000 orange trees from 3 to 5 years old. A carload of 40,000 has just arrived, 10,000 of which have been sold to the Porter Land and Water Company of San Fernando.

Mr. Lewis has 27,000 trees heeled in at San Diego. The freight from Florida was \$400 per car, and Mr. Lewis will realize about 50 cents per tree for his stock.

C. A. Steele has purchased of J. C. Hill his highly-improved property near Anaheim for \$28,000.

Col. Lewis Dillman, a well-known Detroiter and State Representative, has, with his family, removed to Pasadena and will remain.

A Startling Business Proposition.

A little over six weeks ago Mrs. Fowler of 327

would relieve both. She was, however, so increducleus that finally the druggist gave hera bottle, not

A PRIVATE letter from a prominent Republican of Sacramento says: "I think the Democrats of California have no hope for this coast. They are very much depressed about here."

CALIFORNIA climate is not yet very well understood at the East, for there her claims to an all-the-year-round climate are regarded as somewhat paradoxical. An eastern exchange, with an air of withering sarcasm, says:

"California knows how to subsist on climate. After posing as a winter resort for six months, the State is now opening up as a summer resort."

THE Pacific Coast attained considerable prominence at the St. Louis Convention owing to the united stand of at C union there is strength. From now on the Pacific Coast will be a factor which will demand and secure recognition in national politics.

FOLLOWING their usual tactics, the Prohibitionists will undoubtedly make their chief efforts during the coming campaign in those States which are considered doubtful. By this means they can most effectually injure the Republicans, which is the chief practical object of their organization, whatever their theoretical aims may be. The Prohibitionists may succeed in helping the Democrats into office once in a while, but it will be a cold day when the Democrats give the cold water people anything but promises in return.

SENATOR STEWART has introduced two amendments to the Legislative Appropriation Bill, providing for a larger coinage of silver. It is not so important that we should have so many silver dollars in circulation as that we should have some readily negotiable equivalent for the silver which is mined. A carefully-arranged plan for the issue of certificates representing so many ounces of standard silver deposited in the Treasury would probably meet the public demand. The silver notes now in circulation are just as popular as greenbacks, and are accepted everywhere with equal readiness.

A COUPLE of days ago we com-mended the action of the Board of Supervisors in granting \$250 a month to the Board of Trade to enable that body to advertise the advantages of the county. We must now deplore the refusal of the Supervisors to grant the petition of orange-growers for an allowance of \$500 to send an expert to Australia to secure parasites which have there kept the white scale under control. This project is certainly as important as the advertising of our advantages, as if the cushion scale is allowed to proceed unchecked, one of our chief advantages and our leading attraction in the eyes of eastern visitors-our beautiful orange groves-will be things of the past. The amount ed for is small in comparison with the importance of the interest which it would subserve, and we believe the sentiment of the citizens of Los Anles county is in favor of its being

FACTS ABOUT THE ASSOCIATED PRESS.

It may not be generally known that the Associated Press-the greatest, most widely-ramifying, most compre hensive and efficient news-collecting and news-disseminating organization on the globe-has a pretended local rival-which is no rival at all-in the concern miscalled the "California Associated Press," with head and hindquarters at San Francisco, and a precarious support in a few towns on the slope. Such is the case, however; and the recent antics and false pretensions of this impostor organization it is now high time to expose.

During the progress of the late Democratic National Convention the San Francisco agent of this bogus "California Associated Press" had the hardihood to publish to its patrons the following impudent circular or dispatch, which we take from the Los Angeles Tribune (one of those patrons) of June 7th:

PERSONAL CARD EXPLAINING A VERY EFFICIENT SERVICE.

June 7th:

PERSONAL CARD EXPLAINING A VERY

EFFICIENT SERVICE.

SAN FRANCISCO, June 6.

To Editors, Members of the California
Associated Press: The Western Associated
Press, styling itself: "The Associated Press,"
which serves the Los Angeles Itself with their telegraphic
report, and another paper in San Diego,
has not been able to get any of the speeches
delivered at the National Democratic Convention at St. Louis in advance. This fact
is fully demonstrated today, and in this
way: The Evening Post, which is the only
afternoon paper in San Francisco taking
the Western Associated Press report, did
not, in its third edition today, publish, as
the edition will testify, anything of the
speech of Daniel Dougherty, who nominated
Cleveland, and only published a synopsis
of the speech of Gen. Collins, delivered by
that gentleman on his assuming the permanent chairmanship today. Now, you can
testify, as can also the Western Union Telegraph Company, that I telegraphed you
from here on Monday night the text in advance of the speeches of Gen. Collins of
Massachusetts and of Stephen M. White of
Los Angeles; that last night I telegraphed
you the full text of Dougherty's speech
placing Cleveland in nomination, so that in
the case of Gen. Collins's speech you had it
48 hours in advance, and in the other cases
24 hours in advance of the delivery to the
convention; whereas, in every case, the
Western Associated Press did not send
them to this coast until after their actual
delivery to the convention. This is an important fact to every newspaper on this
coast, and one which the proprietors will
quickly understand. As a further proof of
this, I may say that the second edition of
today's Evening Bulletin, which is a member of the California Associated Press, published the full text of Gen. Collins's
speech delivered today, as also the full text
of Mr. Dougherty's speech all will be
glad if you, as a member of the California
Associated Press, only received a short synopsis
of Gen. Collins's speech and nothing at
all of

As Mr. Agent Richardson, in the above, challenges contradiction—in other words, invites a fight—from the patrons of the genuine Associated Press, he can be accommodated.

His claim in reference to alleged advance copies of certain speeches procured by him is largely untrue, and what there is true in it is humbug. As to speeches delivered in the St. Louis Convention, about which all this parade is made, it is an indisputable fact that THE TIMES published every leading speech, with one exception, in full. The exception was the speech of Chairman Collins, of which a very full synopsis was telegraphed and Our report, with this , was almost a verprinted. exception, was almost a verbatim report throughout the entire session. Mr. Richardson raises a false issue, unworthy of discussion by candid men, who know where the real merit in a news report the delegates from the various States lies. We challenge the real issue when and Territories. A similar course will we make the broad, unqualified asserion that the convent this coast by the so-called "California Associated Press" bore no comparison to the report of the Associated Press proper, in the particulars of promptness, fullness, correctness and graphic power. This fact was fully recognized by impartial readers—by men of sense and discrimination-who read the reports from both sources.

As an illustration of the desperate tactics resorted to by the Los Angeles Tribune (a "California Associated Press" paper) during the progress of the St. Louis Convention, to swell its report, attention is called to the fact that it coolly cribbed, on a single day, not less than three columns of the regular Associated Press afternoon report, and printed it the following morning under the false caption of "Copyright, 1888,

by the California Associated Press!" This local organization has recently issued a private circular, addressed to various coast papers, in which it endeavors to make a comparison between its special service and that of the Associated Press, although its allegations are indirect. The circular speaks of the "Western New York Associated Press." There is no news service having that title. The Associated Press is the consolidated working body of the two great American news-gathering organizations known as the New York Associated Press and the Western Associated Press, whose agencies are in every American city and every capital of Europe, and whose franchises are held by every great daily

newspaper in the United States. The allegations of this circular are refuted in a letter, dated the 9th inst., written by Charles S. Diehl, Pacific Coast agent of the only genuine Associated Press. Mr. Diehl's letter (which was, however, written without reference to or knowledge of Richardson's

gauzy dispatch, above quoted,) says: gauzy dispatch, above quoted,) says:

"The circular cites that all the papers receiving the 'California Associated Press' report have severed their connection with the Associated Press. It cites among such papers the Sait Lake Tribune and the Sacramento Record-Union. The two papers named hold Associated Press franchises, and have not left the Associated Press. The other papers cited, excepting the San Francisco Call and Bulletin, never received the dispatches of the Associated Press, and, naturally, had no connection to sever.

"The San Francisco Call and the San Francisco Bulletin, which did receive the eastern dispatches of the Associated Press,

ceased taking this service on May 3, 1888, owing to their failure to comply with the rule observed by all members of the Associated Press, namely, to protect the news of the mutual service. The San Francisco Call and Builetin, both owned by the same people, constitute the 'California Associated Press.'

ciated Press.'

"The circular cites that the Associated Press carries a total of 5200 words daily of eastern news—1200 in the day and 4000 at night—or a total or 156,000 words a month. The Associated Press carried during the month of May, 1888, from the East, a total of 217,952 words, as confirmed by the bills of the Western Union Telegraph Company, in the proportion of 55,000 in the day and 163,000 words at night. In expanded form this exceeds 250,000 words. The Associated Press has been under contract for a number of years to supply its San Francisco, Sacramento, Portland, Tacoma and Seattle, newspapers with a minimum of cisco, Sacramento, Portland, Tacoma and Seattle newspapers with a minimum of 180,000 words of eastern report, but it has never held to that minimum, but has handled all news as the occasion demanded, and contemplates materially increasing these figures. In addition, the Associated Press carries from 85,000 to 110,000 words of Pacilic Coast news each month, making a total exceeding 320,000 words monthly. In addition to the regular report of the Associated Press, such journals as the San Francisco Chronicle, San Francisco Examiner and Portland Oregonian print from 300,000 to 450,000 words monthly of 'specials' made up in Associated Press newspaper offices at the East. A summary of all this news desired by the Associated Press is sent to the Associated Press papers on the Pacific Coastan aggregate of 700,000 to 800,000 words monthly—to select from.

"The circular cites that the Call-Bulletin service collects on aggregate 1800 words "The circular cites that the Call-Bulletin

an aggregate of 70%,000 to 800,000 words monthly—to select from.

"The circular cites that the Call-Bulletin service collects an aggregate of 16,000 words a day, indicating an aggregate of 480,000 words a month. As to the correctness of this statement, it may be cited that a careful survey of the columns of the Call for every day in May shows an aggregate of about 237,000 words in expanded form under the head of telegraph of every description from the East, whether carried by that paper or taken from San Francisco afternoon papers. Before being deprived of the Associated Press'dispatches the Call printed from 380,000 to 400,000 words of eastern news alone, exclusive of Pacific Coast news, according to the showing made in its columns. Including the Associated Press report, the Chronicle and Examiner printed more than 700,000 words of telegraphic news. On Sunday, June 3d, the Chronicle printed 30,700 words. The Call of the same date printed 10,940 words.

"The Associated Press is a mutual organization of the newspapers composing it, and which comprises every great newspaper in the Union. It is only by this concert that its tremendous news feats are accomplished. There is no plece of foreign news, of whatever magnitude, that is not as fathfully and fully chronicled as any event of interest in America, whether it be the great speeches of Gladstone and Bismarck or a battle in Asia. In this country its leased telegraph wires, stretching from Boston to St. Paul, Kansas City and New Orleans, transmit the news the moment it occurs. The so-called rival services depend upon early editions of New York and Chieago papers and the bulletin-boards. Counting upon three hours' difference in time between New York and San Francisco, the Call-Bulletin service gathers some of the outlines and headings of great news events. This, however, is a very uncertain and precarious service. It is a confession that it depends upon the Associated Press news, obtained after publica-

Call-Bulletin service gathers some of the outlines and headings of great news events. This, however, is a very uncertain and precarious service. It is a confession that it. depends upon the Associated Press news, obtained after publication, and never arrives here in time to be sent to interior papers. As an illustration of its incapacity, it failed to receive or print the Biaine letter until a day after it had appeared in every Associated Press paper in the United States, including those upon the Pacific Coast [the Los ANGELES TIMES among the number]; it published an unfounded rumor that Gen. Sheridan had died on May 28th, based on a New York bulletin-board; it announced the peremptory resignation of Prince Bismarck, which was shown to be untrue in the same issues of the Associated, Press papers; it announced the capture of the Wisconsin muderer of a whole family, while the Associated Press papers gave a full account of the lynching. It misses from 70 to 80 pieces, of important eastern and foreign news intelligence daily, while the Pacific Coast report of the Associated Press is so confessed y superfor that there is no need of com-

"The Los Angeles Associated Press pa pers—The Thies, Herald and Express— print a larger and much superior report that of the Call and Bulletin, and are a day in advance of those papers on all importan news events. The San José, Fresno, Stock ton and Santa Cruz papers of the Associated Press print not only more advance easternews, but daily print later exciting intelli news, but daily print later exciting intelli-gence local to San Francisco, obtained through the Associated Press from the Alta, Chronicle, Examiner and Post, than even the Call and Bulletin. This was illustrated in the burning of the Stanford stables at Palo Alto, and the St. Helena lynching on May 5th.

"The news of the Associated Press is received from two to three hours earlier than any special service, and can supply its papers outside of San Francisco with news events that could never otherwise be sent to them for publication. It not only supplies all the news, but it gives it in time for publication. Respectfully, "CHARLES S. DIEHL, "Pacific Coast Agent of the Associated Press."

The above is a plain statement of facts-facts that are notorious in newspaper circles-facts that cannot be controverted. Mr. Diehl's comprehensive and forcible exposition of the situation is timely, and was made necessary by the audacious and groundless pretensions of the pseudo concern that preposterously pretends to be a rival to the genuine and famous Associated Press proper. (All others are base imitations. See that the name is blown in the bottle.) The earlier publication of this exposé, which sweeps away the pretensions of the side-show gang as chaff is swept away in a septentrional gale, was justified, and would have been made much earlier, but for the repugnance of the veteran Associated Press to mount the adolescent frame of a weak and struggling stripling, striving to reach a position in the news-gathering field. But the impudence of the stripling has at last made the exposé neces sary.

Since Mr. Richardson has invited a controversy over a matter which he can-not afford to have uncovered, we feel constrained to give him the benefit of the above, and also of the notoriety he has gained in journalistic circles by a serious suit against him, which we find reported in the San Francisco Chroni-

cle of recent date. If Mr. Richardson (whom we have never desired to judge harshly) has any explanation to make of the legal

charges against him, THE TIMES will cheerfully give him a hearing.

But in the more important matter at ssue, namely, the relative value of these respective news services, let us hear no more of this silly pretense that the powerful Associated Press-the only thorough news-gathering organ ization-has any rival in the alleged 'California Associated Press." claims fatigue an intelligent populace at the approach of the summer sol

Still Beating About the Bush.

The stoppage of the revenue to the Democracy—and to whom else?—from the gambling tables in forty-eight hours brought the Herald to a realization of the importance of the subject which forty-eight years of argument based on public policy would not have imparted. Our contemporary yesterday devoted nearly four columns to the gambling question, including a local article, a local editorial article 'straight" editorial. From first to last the same course of wearisome generalizations and persistent avoidance of the issue is followed.

A long interview with the Mayor fails to furnish anything which the Herald can use against that official. On the contrary, the following manly words of the Mayor, as reported by the Herald, are highly creditable to him as a citizen and a public official:

"When I was elected Mayor I think my duty was to the whole people, not to any party. The course which I have adopted will redound to the good of the Democratic party. I do not believe in politics in the police office. And while some of the Democrats want to read me out of the party, and while the Herald may 'burn me up,' still I am a good Democrat."

Notwithstanding this, the Herald proceeds to threaten Mayor Workman editorially in very thinly-disguised language. It says:

guage. It says:

The masses, who elected a Democratic municipal government, demand harmony and united party action in the interest of good government. It is entirely safe to say that no man has a very durable political future who will so shape his action as to disappoint this just expectation. The car of Juggernaut will simply roll over the Democrat who accepted a political trust. Democrat who accepted a political trust from his fellow-partisans, and who shall yet administer it in the interest of his political

opponents.
This means, in plain language, that if the Mayor continue to suppress the vicious element, irrespective of party, the gamblers and rogues and thieves who hang on to the skirts of the Demo cratic party will "knife" him, and that the Herald will lead on in this noble work. It is safe to say that, for every enemy Mayor Workman may make among corrupt Democrats, he will make a dozen friends among good citi-

zens, irrespective of party.
All this verbeage of the Herald about partisan spite and hurting the city, and "Sodom and Gomorrah" is simply twaddle—words, idle words, used for the purpose of hiding the real issue, which is plain, simple and clear. THE TIMES has kept to its text and will keep to it: Shall gambling be permitted to go on unchecked, with its attendant demoralization of bribery and corruption? The Chief of Police shown that we were right, when we declared that he could close the games. They must be kept closed. There will be no trouble about this, if the Chief and the District Attorney do their duty. A conviction and sentence to the penitentiary for a couple of years would make the gambling fraternity

fight very shy of this city.

THE TIMES is on the side of law. order and right. The Mayor and Mr. Humphreys are endeavoring to enforce the law. The Herald is throwing every obstacle it dare in their way. That is its position, let it squirm and straddle and crawfish as it will. We are not partisan in this matter. That accusation will not stick. The citizens know that THE TIMES is as ready to expose Republican rogues as Democratic thieves. We have given proof of this.

When the white gamblers of this city can afford to offer \$4000 to one journal to secure its silence, how much been paying, for permission to continue their unlawful calling without molestation by the officers of the law whose duty it is to arrest and punish them, is it not high time that so threatening an evil should be stamped out?

DEATH by electricity instead of by the hangman's noose is what the murderer in New York will have to meet after January 1, 1889. One great advantage of this new method is, that it will be conducted with the utmost secrecy and dispatch. There will be no speech-making on the part of the criminal; no chance for the display of bravado, and no harrowing details given to the newspapers descriptive of the final drop and the last struggles. The New York law provides that the final act shall be performed with the atmost secreey, and the criminal will be compelled to face death without any of the excitement of the funeral march and an attendant crowd. Other States will watch with interest the effects of this new experiment of jus-The effect, however, can be readily forseen: it will be discouraging to longevity.

THAT was a brilliant financial stroke of Secretary Endicott's, who gave a large order for army blankets to an English firm, whose bid was 30 cents lower than the lowest American bid. By not paying any duty, the Government gets the goods slightly below cost in this country. Such is Democratic reform!

Without taking up the contests, of which
there are several, including the important
one from Virginia, between the Mahone
and Riddleberger delegations, or the appointment of temporary officers for the convention in which so much interest centers, the committee at 1 p.m. adjourned until o'clock tomorrow night.

A GRESHAM-HARRISON COMBINATION.
The first combination between any two
leading candidates for the Presidency was The first combination between any two leading candidates for the Presidency was brought to a culmination today. The friends of Harrison and Gresham met quietly, and in a short time their forces were harmonious. It was an Indiana family gathering. Among the Harrison leaders present were Attorney-General Mitchener, ex-Congressman Peelle and Secretary of State Griffin. Gresham's representatives included C. W. Fairbanks, State Senator Graham and Col. Henry Drew. Both sides recognized the foliy of the friends of two Indiana men coming to Chicago to fight each other. The conference resulted in an understanding that the friends of Harrison and Gresham should not attack each other; that both sides should do the best they could for their men in the friendliest spirit, and that the Indiana delegates should vote solidly from start to finish. When it should become evident in the convention that Harrison could not be nominated, then Gresham should be accorded the support of his native State. The time when the delegation should, in such contingency, begin voting for Gresham was left to the honor of the delegates themselves. Mr. Fairbanks is a strong supporter of Gresham, He says there is the friend-liest feeling between the old friends of Blaine and the supporters of Gresham, and that Gresham's greatest friends come from those who always voted for Blaine.

Col. Ingersoll is to make a speech for Gresham, but not in the convention. Before the time comes for the nomination of candidates there will undoubtedly be one or more open mass-meetings. It is at one of these gatherings that Ingersoll is to make the greatest effort of his life. The honor of seconding the nomination of Gresham will go to John R. Lynch (colored), the Mississippi member of the Republican National Committee.

What was regarded as a bomb in the

What was regarded as a bomb in the Gresham camp was a declaration for Biaine coming from W. E. Kent of Chicago, one of the first delegates in Illinois that was instructed for Gresham. Kent represents the Second District, where two-thirds of the voters are Irish-Americans. He is quoted as saying: "I shall have lets of company, and the 44 delegates from Illinois, if they are needed. I have made up my mind to disregard the instructions and vote for Blaine, because there is going to be a deadlock and then a break for Blaine, and the Republicans in my district are solid for him."

The Gresham managers claim to have assurances that Kent will vote as instructed.

Harrison's friends have secured John F.
Switt of the California delegation to second his nomination. They hope thus to prove to the convention that Harrison is not unpopular on the slope.

SHERMAN'S STRENGTH.

The Sherman headquarters were formally The Sherman headquarters were formally opened today with a lavish display of bunting and a continuous procession of visitors. Among them was W. T. Brownlow, member of the National Committee from Tennessee, He said: "Sherman will start with a far greater vote than any other candidate. The Blaine sentiment is mostly among men who have axes to grind."

Gov. Charles Foster of Ohio is one of the latest arrivals. He says: "Sherman will be nominated and elected."

Speaking of Gov. Alger, Mr. Fraser of Detroit said: "The nominee of this convention must be a good Republican, a tried statesman and a brave soldier. That is the kind of a man we propose to offer. Michi-

tion must be a good Reputorican, a tried statesman and a brave soldier. That is the kind of a man we propose to offer. Michigon has no second choice."

The arrival of Ex-Senator Kellogg and Ex-Gov. Warmouth of Lousiana has given rise to rumors of accessions to the boom of Senator Ingalls of Kansas. Mr. Kellogg was seen this evening and said: "The South has no intention of forcing a Presidential boom, but we have the best of feelings for Ingalls, and can say that from Louisiana he will receive at least three votes. Louisiana feels kindly toward Ingalls for his noble attack on the Democratic political tactics as they were carried out in our section."

MRS. LOGAN WORKING FOR ALGER.

MRS. LOGAN WORKING FOR ALGER Mrs. John A. Logan has entered the can-vass for Gov. Alger with old-time energy, spiced with a tinge of bitterness toward spiced with a tinge of bitterness toward other candidates. This new element is likely to create a good deal of bitterness, and it has already caused consternation in more than one delegation. Mrs. Logan, on her arrival at the Grand Paclic, was waited upon by members of the Chicago Veterans' Union and given a hearty reception. She had a word and hand-shake for every old soldier. In speaking to newspaper men, who crowded about her, she paid a high tribute to Alger. She said: "He has always been honorable in his dealings. The people say he is unknown. The reason for this is that he has not antagonized anybody. He has not abused other Republicans. This is more than can be said of some other candidates in the field. I am fair enough to believe that Blaine is honest, but I think he is out of the race."
"What do think of the chances of the party?"

if Alger is nominated he will be elected. He is strong with the soldiers and a safe, careful, honest man, who is true to his friends. A man who is true to his friends can be relied upon for his country."

can be relied upon for his country."

THE IRISH VOTE.

Patrick Egan, ex-president of the Irish
National League and delegate-at-large from
Nebraska, arrived teday. He says that of
the 10 members of the Nebraska delegation,
seven are for Blaine, one for Alger, and one
each for Gresham and Sherman. He says:
"Should no choice be reached after a few
ballots, I should not be surprised if Blaine
were then nominated."

ballots, I should not be surprised if Blaine were then nominated."

Speaking of Ford's statement in connection with Blaine and the Irish-American votes, he said: "Of what is called the Irish votes, to the number of 70,000 in the State of New York, the greater part was given to the Republican ticket because it represented protection to American industry. Mr. Blaine would undoubtedly get votes that no other candidate would draw. However, any Republican candidate on a protection platform will poll a large Irish vote. They will not support free trade."

THE COAST DELEGATES

Their Stop at Denver-Blaine Their

First Choice.

DENVER (Colo.), June 14.—[By the Assolated Press.] A portion of the Pacific Coast delegation, consisting of California, Oregon and Nevada, arrived in this city at 6 this morning on the Union Pacific. Most of the delegates and visitors are accompa-nied by their wives. The party consists of 160 people, and the train was composed of seven sleepers, dining, commissary and baggage cars, and is without doubt the nicest-equipped train that ever crossed the continent. The three delegations held a meeting yesterday, at which Hon. Creed Haymond was chosen spokesman of the delegation. A resolution was unanimously adopted, favoring J. G. Blaine for first

George Degolia, secretary of the California delegation, in conversation on the political situation, said: "The Pacific Coast is a unit for Biaine. We want no other and will have no other unless it is impossible for us to prevail upon him to accept the nomination. We have thought of no other man and have no second choice, nor have we given the second place on the ticket any consideration."

Charles F. Crocker expressed the same idea as to the choice of the people of the West, and added: "While all are for Blaine, we do not desire to have the people understand that we will cast our votes solid for him on the first ballot. If Blaine will not accept we will consult with our friends in Indiana, New York and other States, and will then support the candidate who will have the greatest influence in carrying doubtful States. We have not yet thought of Vice-President, and will give no attention to this until we have determined upon the man to fill the first place. We have only one thing to ask of the convention. We will present the name of M. M. Estee of Napa for temporary chairman, and would like to see him unanimously elected."

M. D. Foley, chairman of the delegation, said: "We want Blaine, but if we can't get him, we will support the next best man. But before we express any choice we will wait and see what Colorado wants. Our interests are identical, and we are for silver and lead and for protection. I want to see all the delegations between the Misseouri River and the Pacific unite in favor of those three, and I intend to use all my efforts to secure this result. As to the teket nominated at St. Louis, I think it the best the Democrats could put up. Thurman has always been a great favorite with us, and I think he will be the means of securing more votes for the party than any Democrat in the country could. My honest opinion is that the head of the Democratic ticket is at the tail."

Mr. Barin, chairman of the Oregon delegation, had nothing to say, except that they were all for Blaine. The delegates exheres had seen the Chamber of Commerce this afternoon was given up on account

Garfield, near Mentor, to witness the marriage of Harry Garheld and Miss Belle Mason of Cleveland, and J. Stanley Brown of Washington, D. C., and Miss Mary Garfield. The house was beautifully decorated with palms, potted plants and cut flowers. A large bay window in the library, where the wedding parties were to stand during the ceremony, was canopied with roses and smilax and lined with palms and semi-tropical plants so as to form an alcove of soft greenery. In front of this recess and partly under the canopy of roses and smllax stood a low kneeling desk, over which had been thrown a piece of Egyptian drapery, covered with white and gold em-broidery. Here and there on the low book-cases stood large vases filled with red or white peonies and spikes of dark blue lupine, and over the marble bust of Gen. Garfield, in the northeastern corner of the room, had been draped the flag of Williams College, class of '56, which hung over the banquet table on the occasion of the meet-ing of that class in Washington on the evening of Gen. Garfield's inauguration, and which was sent by Dr. Root to Mrs. Garfield to be used at the wedding of her Garfield to be used at the wedding of her children. Roses decorated also the portrait of Miss Mason's father, the late James Mason of Cleveland. The party took their places in front of the embowered bay window, and the marriage services according to the Presbyterian form, was read by Rev. Dr. William V. W. Davis, who is now pastor of Union Church at Worcester, Mass, but who was at one time pastor of Euclid-avenue Presbyterian Church, in Cleveland.

At the conclusion of the ceremony the bridal party took positions at the southern end of the room, and the second party entered, consisting of J. Stanley Brown and his bride, Miss May Garfield, accompanied by Miss Mabel Kittridge of New York, Miss Minnie Garfield of Ceveland, Miss Sallie Foster of Cincinnati and Miss Ellen Windol of New York as bridesmaids, and L. J. Hatch of Chicago, J. J. Chickering of Washington, Irving Garfield of Mentor, Charles Jewett of Buffalo and Parcival Farquahar of New York city as groomsmen. L. J. Hatch was the groom's best man and Miss May Mason acted as maid of honor. When the bride and groom had taken positions the marriage service was read by Dr. Davis a second time to the accompaniment of very faint music from the orchestra in the upper hall. At the conclusion of the ceremony both bridal parties stationed themselves in front of the alcove, and the newly-wedded young people received the congratulations of their friends while the orchestra played Mendelssohn's "Wedding March." At 6 o'clock supper was served in the lower rooms, all the guests being seated at tables beautifully decorated, with flowers and lighted.

At midnight it was said at Gen. Sheridan's residence that the General has continued to hold the improvement shown this week. He has rested easily, and slept a good deal of the time. No symptoms of another relapse have occurred, and the General has not had an attack of coughing this evening.

The Diss de Barr Case.

NEW YORK, June 14.—In the Diss de Barr
trial today, several persons, believers in
spiritualism, testified to the wonderful mediumistic powers of the madame, among them being ex-Judge Nelson Cross, formerly of the Court of Common Pleas of Cincin-

of the Court of Common Pleas of Cincinnati. The witness, in addition to seeing pictures come and receiving spirit writings, had been present at a seance given by the defendant when she caused a shower of natural flowers in the room.

An expert in handwriting testified that the alleged communications from St. Peter and Franklin were written in one hand, and that the hand which had penned the madame's personal letters. When shown some of her notes he declared that they were identical with the other writings, but Titus Merritt took the stand and testified that he (the witnes) and not the madame had written them. This ended the testimony. The case will be argued tomorrow.

### LETTERS TO THE TIMES.

The Azusa and Covina Water Trouble.

LOS ANGELES. June 11.—[To the Editor of THE TIMES.] This trouble about the San Gabriel water supply seems to be misunderstood, especially by strangers. Since the difficulty is about water, these strangers jump to the conclusion that the supply is short and each party is after the control of it, and that the party acquiring control will have only an amount of water sufficient for such controlling party, leaving the less fortunate without water. Now, we do hot so understand the question. As we understand it, it is about this: [The Azusa party claims all, or a certain matural flow, for certain lands known as the old Azusa water district lands. This party holds that there is only water sufficient to irrigate this land. The Covina party claims that the supply can be increased largely by development, and, as evidence, claim an increase, and ask that this increased supply in inches be asby strangers. Since the difficulty is his increased supply in inches be assigned to them.

Divested of all personalities and techniques

nical points, this we think is about the statement of the case. Now, let us put

med points, this we think is about the statement of the case. Now, let us put down a few simple propositions.

First, the San Gabriel water supply is rated as one of the best, and perhaps the best, in Southern California. Proposition second. No limit has yet been reached in the increased supply of water by tunnels, by dams and economical distribution. Third, the San Gabriel River, standing at the head of our natural water supplies, presents no exception to the rule. nancely, that the limit has not been reached to its increase by means of submerged dams, tunnels, reservoirs and distribution. These propositions are, to say the last, feasible.

Now for the application. Since these things are true, why not some nine or ten of the most peaceable and less radical of each party assemble and form an alliance on the basis of a united development and distribution of this water?

These persons could mature a joint pany, and every landholder in the whole tract now in dispute could have his proportionate share of water stock and be a member of this incorporation. Instead of spending money in neigh-borhood fights, the same could be ex-pended in development and distribupended in development and distribution, and such a company would become a power that would improve and enhance the value of all this great, fertile valley. I consider myself very fortunate in belonging to a company that is proceeding on this very plan in developing the water supply on the noted Ben Parker rancho, where we simply go down to bedrock, where flows an inexhaustible supply of water, and by a carefully constructed dam catch and distribute this to the adjacent lands. The Bear Valley dam is an improvement of a like kind. I have but little interest in this fine valley of the Azusa, yet I would take great pleasifie in aiding a measure of this kind, and in giving details.

Hoping now that these hints will meet the approval of the more peaceably disposed. I would suggest that an effort be made in this direction, and I

effort be made in this direction, and I will be pleased to meet with such per-sons at a suitable time and place, where we can in calmuess and reason look over the ground, and if possible devise some ways and means of a peaceable settlement. We can at least make a manly effort in that direction. I am peaceable and neutral, so far as being tied to either party. It seems to me that by moderate concessions by all, a solution can be reached that will

bring to all untold presperity.

Stimulate Manufactures. Los Angeles, June 8.—[To the Editor of The Times.] Your recent prediction that we are on the eve of a manufacturing boom every loyal citizen hopes to see realized in the near future. Would it not be well to go about this matter systematically? Say, to organize a manufacturers' exchange through which those now most actively engaged in such enterprises can make their influence most effective in working up new enterprises, or expanding present industries, to the great advantage of both labor and capital now seeking opportunity. I find, upon inquiry, there are many skilled mechanics here unemployed. Again, there are many enterprises just starting here that are greatly cramped for means to expand their facilities for manufactur- ment, and Mr George Nessenthaler, the fo ing according to demand. At the same time, capital is vainly seeking profitable employment, and even leaving this city under the erroneous impression that desirable opportunities here are not now offering. Is not this a strange state of affairs, and does it not point to defective organization? At any rate, is it not worth an organized, systematic effort to find out where the difficulty is, and remedy it if possible? SUGGESTION.

Help the Indigent Pioneers Los Angeles, June 8 .- [To the Editor of THE TIMES. | . I see every few days some old familiar face of the old Spanish families on the streets of Los Angeles, destitute and in many cases begging for alms of the passers-by. The most of these old people were rich when I came here, 36 years ago, and were liberal to the poor Americans coming across the plains in those days, dividing with them anything they had liberally. Some of them suffered loss from des-peradoes by being friendly to the Amerperadoes by being friendly to the American Government in the conquest of Califoffilia by the Americans. They are now old and poor and destitute of this world's goods, and do not know how to make a living under the new state of things. The county of Los Angeles is rich, and can well afford to provide sustenance for these few old ploneers during the balance of their short stay in this world; and I would suggest that the Board of Supervisors appoint a committee to hunt up all those old people who have been worthy citizens of this beautiful country for so many years, and that they be placed on many years, and that they be placed on the indigent list and provided with the necessaries of life from the county funds for the balance of their short stay amongst us.

let that cold of yours run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consump-

tarn. Or into pneumonia. Or consumption.

Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself.

The breathing apparatus must be kept healthy and clear of all obstructions and offensive matter. Otherwise there is trouble shead.

All the diseases of these parts, head, nose, throat, bronchial tubes and lungs can be delightfully and entirely cured by the use of Boschee's German Syrup. If you don't know this alrerdy, thousands and thousands of people can tell you. They have been cured by it and "know how it is themselves." Bottle only 75 cents. Ask any druggist.

members were admitted.

Beer seems to be getting the upper hand in certain female circles. The officers have gathered in quite a number of drunken women of late, and beer is the cause of their troubles in every case.

Judge Hutton yesterday dismissed the disbarment suit against C. C. Stephens, but it is probable the suit will be recommenced in the Supreme Court of the State, when the uniter will be carried to an issue.

the matter will be carried to an issue.

The managers of the Tenth-street hotel are pushing things with all their might and expect to have the hotel ready for guests early next spring. There is a large force of men at work on the building at present. Howard, Lothian & Co. have commenced suit against Mrs. M. Kremer et al., to recover \$37.20, with an additional \$50 for attorneys' fees, on a lien sgainst a lot and premises, at the corner of Eighth and Hope streets.

The Parker Association of the First Baptist Church will give a social in the pariers of the church this evening. An invitation is extended to all, and as a good programme has been prepared a pleasant evening may be expected.

There will be held this evening in the Opera-house Hall, one of those delightful socials for which the Canadlan Society has become so noted. The committee has arranged an excellent programme for the en-tertainment of those present, and all are cordially invited to attend.

Whittier, Fuller & Co. have commenced suit against Junua A. Neil et al., to recover \$411.50, with an additional sum of \$150 for attorneys' fees and costs of suit, on a lien heid against certain premises on the west wide of Spring street between Second and Third streets.

Third streets.

The first annual entertainment of the Irving Literary Society, University Chapel, will be given on Saturday evening, June 16th, at 7:30 o'clock. A well-arranged programme has been prepared, the music for the occasion being furnished by the Y.M.C.A. Orchestra.

Y.M.C.A. Orchestra.

Ellsworth, the boy burglar, was again brought before Justice Taney last evening at 7 o'clock, but as nei her the District Attorney nor any of the witnesses were present, the case went over until this morning. This case has caused no end of trouble, and it is to be hoped that it will be finally disposed of without further delay.

Oles Orvette, a barkeeper in the Union saloon of South Main street, next to the Opera-house, was arrested by Officer Leart and Deputy Constable Hunter yesterday afternoon for brutally beating a drunken customer with a piece of lead pipe. It was a clear case, and he was ordered by the Court to appear for sentence this morning.

There will be a meeting of the Committee of Arrangements for the Fourth-of-July celebration at the Mayor's office, Saturday morning at 11 o'clock sharp. All the members are requested to be on hand promptly, as matters of importance will be considered.

There will be a concert at Turnverein Hall on the evening of Wednesday, the 20th, for the benefit of the firemen's relief fund, under the auspices of a number of the ladies of the city. Several prominent local amateurs will take part, and the affair promises to be one of the most enjoyable of the season.

Central and Vernon avenues.

Attention has been drawn by The Times to the unsatisfactory manner in which the business of sprinkling the streets has recently been conducted. The strictures upon D. F. Donegan, the contractor for the work, were, as it has since appeared, not altogether deserved, insamuch as he, while supplying the teams for sprinkling, is subject to the orders of the Board of Health, who have taken the matter into their hands, and dictate when and how the sprinkling shall be done. So far, the manner in which the work has been done does not reflect any credit upon the board.

CONSUMPTION.

From consumers, "to waste away," usually applied to the advanced stage of iung disease. The following are promisent symptoms in the first stage, and whenever any of them exists a thorough examination should be made, with a view to arresting the disease as shown to exist: There is usually a sense of weariness upon a little exercise, a disposition to remain passive and idle, despondere. often from no apparent cause, a peculiar sensitiveness to the effect of coid, and a broathlessness upon moving quickly, or descending a hill or stairs, a slight, hacking cough, with or with out expectoration, excitability upon slight occasions, fiying pains through the chest of back, or under the shoulder biades. The symptoms are more noticeable toward the remaining the night, slight fever in the afternoon could else or hands, or in many cases, but the light of the lips and roots of the finger-nails.

Constitutional or tubercular consumption is a common form of lung disease. The progress is slow, but if left to itself is no less sure. It usually begins with a dry cough. Af first these tubercles are exceedingly minute the patient not at all suspecting their presence. Gradually they develop into more scuve disease, and then follows the train of symptoms which leaves no doubt as to its true character. Sometimes spitting of blood or slight streaks in the mucus is the first ind cation of tubercular decosits. or it may be a chily sensation in the back, followed by more or less heat in the pains of the hands, or an afternoon flush on the cheeks. The slow and gradual inroads of this form of consumption leave the stomach and appetite undisturbed for a considerable time. Finally, however, hectic fever and night sweats supervene, preceded by diarrhea. Then the loss of strength and flesh becomes rapid, the chest contracts, the features sharpen, the eye attains an unusual brilliancy, and the patient begins to realize that he is in the last stage of confirmed consition of hindrance to business what-

ever.

I have seen so many of these cases cured that I do not consider any case hopeless until both lungs are seriously involved. Even then the inhalations aid us in dissolving the The very best references from those already
